The Great Remedy for Gonorrhœa

GLEET, Stricture and a lasting uncomplaint is **Dr DOUGLASS'S ARABIAN PASTE.** Dr Douglass is well known having practiced in the principal cities ... during the last 40 years. His only reason for introducing the Paste in this public manner is the ... ness that there are thousands of ill treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable trash of quacks.

Dr D most solemnly affirms that during his practice of forty years (the Paste has never in a single instance failed of effecting a cure in a few days without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment adopted by our first physicians for months and even years but after taking the Paste for a few days, the angry symptoms disappeared and the patient were discharged entirely cured.

If the afflicted ... instead of drugging themselves with quack nostrums would purchase only one box of the Arabian Paste ... we shall not see so many emancipated bodies and sallow countenances as we do at the present time.

If in one box ... Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchaser on returning the empty boxes.

For sale only by the original inventor and sole proprietor DR PETER ... DOUGLASS at his Office No 55 Union street, Boston at $5 per box, where he can be confidentially consulted on every disease incident to the human frame and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

PATENTS.
AMERICAN AND FOREIGN OFFICE,
And Agency of the U S Patent Office Washington,
22 State Street—Boston.

THE subscriber by appointment from the Commissioner of Patents is Agent of the U S Patent Office for receiving and forwarding to the same models specimens or manufactures to be patented, or deposited therein which will be sent *free of expense and risk* and with despatch. He will prepare Caveats Specifications Assignments and all the necessary Papers and Drawings for Patents, will make researches into American and Foreign works to test the validity of inventions and render advice on legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office inventors are saved the time and expense of a journey to Washington and delay there as well as all personal trouble in obtaining their patents. They also have the advantage of verbal explaining their inventions and of consulting in respect to them ... *et cetera* ... The experience ... fifteen years practice and extensive collection of rare works ... and ... on mechanical subjects the Patent Laws and patents of different countries collected at much expense during the long time this office has been established together with accounts here kept of inventions patented at Washington, enable the subscriber to afford to inventors desirous of procuring Patents assistance and information which in other respects might be difficult of attainment.

Cheap Travelling and Elegant Accommodations.

A recent visit to the old Bay State in which we were absent but a few days has very strongly impressed us with the present facilities and cheapness of travelling. In five days we enjoyed two delightful steamboat trips of between one and two hundred miles each, visited many friends in five different cities, and as many towns—transacted various matters of business—called upon the new editor of the Lowell Journal, whom we found up to his elbows in business—had a glorious view of the country in the interior of Massachusetts and all this at a small outlay.

The present competition among the steamboats has reduced the fare on the two different routes to Boston to the exceedingly small sum of one dollar.

The smallness of the fare is in direct contrast with the elegance of the accommodations. Upon the route to Boston by the way of Portland and the Railroad, the new and elegant steamer State of Maine makes three trips a week taking her passengers from this city at six o'clock in the morning, landing them at Portland in the afternoon, where a special train of as good and as comfortable cars, and under the superintendence of as attentive, gentlemanly and worthy conductors as can be found in all our land, is in waiting for their reception, and safely landing them at Boston on the same evening.

This season the cars run upon the Boston and Maine Railroad and passengers can be landed at Lawrence, where all passengers intending to go to Lowell, or to the North, stop, and reach Lowell by the Lawrence and Lowell road; the fare on this road being twenty five cents.

The fare on the Lowell road is reduced to two cents a mile for any distance.

With these facilities and the determination of Capt Howes of the steamer State of Maine, and all his officers to omit nothing which shall contribute to the happiness and comfort of passengers, and also of all connected with the Railroad to make the journey safe and agreeable, there can be no wonder that passengers by many hundreds at a trip are tempted to pass over the route.

The beautiful, substantial and well appointed steamer Governor, under the command of Capt. Jewett makes two trips a week to and from Boston direct, without stopping at Portland. Here too are elegant accommodations and every agreeable attention to passengers, and a determination to make this a popular and acceptable route.

One of our number recently tried one of these routes and one the other, and was well satisfied in each with the route selected that he deems it the best, or at any rate that it cannot be excelled by the other.

The State of Maine and the Governor are both fast boats, the former gains upon the latter about one mile, or perhaps a little more in an hour, or did so when they came along together while we were on board.

The Penobscot that has been a favorite upon the outside route for two years, still makes her regular trips and at the reduced rate of one dollar.

The fact is that no route out from Boston affords so many attentions, either in fare or accommodations, for those disposed to travel on health and pleasure seeking, as that in the Penobscot river. The large numbers of passengers which are now being [illegible] show that the people are fast learning the facts in the case and are improving the opportunities furnished them. In proof of this, we noticed on board the boats on Saturday several persons who left Boston on Friday evening intending to spend the most of Saturday, the Sabbath, and nearly half of Monday with their friends in this city and return to Boston before business hours on Tuesday morning. There were several persons on board the boats who left here yesterday who intend to spend this day in doing business in Boston and reach their homes to-morrow noon, at an expense of two dollars and two days time! What a change in this from a few years since, when to spend the same time for business in Boston cost eight days time and about twenty-five dollars!

Practical application of Association.

The St John N. B. Bee, mentions a fact which illustrates the practical advantages of association. The middle interest in that city associated for the purpose of mutual health insurance and benefits in case of sickness. The fund was raised by an admission fee and by small monthly dues. After being in operation some time, and the expense of the association being very small, there was accumulated a sufficient fund for the establishment of a common bakery, where the members obtained their bread at reduced rates, and all others at the ordinary market rates. The profits on supplying other persons with bread has enabled the association to start a pure milk depot and route, on the same principles.

The principle of association is that which most distinguishes our age. The application of it to the business affairs of the masses of the community has been assailed with almost every conceivable missile. It is represented as an absurdity. Men are supposed to be incapable of working for the welfare of others even if thereby they benefit themselves. The law of supreme selfishness is only recognized as having an existence amongst men.

But in spite of all that is said to misrepresent the principles of popular association, and all that is said to discourage men from engaging in associated effort for the advancement of their welfare, facts do here and there appear, like the one referred to at St. John, which go to prove that those who have faith and perseverance in the matter, do and will succeed.

We confess that we have less anxiety about the application of the associative principles to mere money getting or money saving, than we have to the higher interests and welfare of humanity. Men are however placed in this world with their hands towards the earth, and their faces towards the sky, teaching them by every day's experience, as well as by position, that they must labor with their hands in the earth, and aspire with their intellects and affections to the heavens. Men must work as well as pray. There is a blending of the temporal and spiritual interests of mankind, like the blending of the natural and the spiritual worlds.

The great error of the world is, that the temporal engrosses so exclusively the thought and effort, that the strong and successful become self-engrossed with possessions, leaving the remainder to tug with weary and hurried steps for a subsistence, which both give little heed to their moral being and their spiritual natures.

The result of all intelligent labor is mind embodied and chrystalized. The product of all these results in the form of what the world calls wealth, is concentrated labor. The incomings from mind and labor should be so adjusted as to produce the greatest amount of benefit, which is, so to provide for the wants of mankind, so to replenish the body, as best to promote the growth and welfare of the understanding and the will, since the highest aim should be the well-doing and well being of the soul.

Our truest ideal of progress should therefore be to carry humanity forward and upward to a higher and purer plane of intellectual greatness and moral purity, and nearer the heavenly sunlight of truth in the understanding, and of love in the heart, by which only can the image of God be reflected on our souls.

From this view of our relations and duties, we may find a wide space for the application, in various ways, of the principles of association.—We must remember that what but a few years since, were simple mechanical powers, have grown up, by the application of mind and hand labor, into machines whose wizard forces are daily increasing human power and enlarging its sphere of action. A stern and griping necessity was once the mother of invention, but now, inventions are born of healthy and substantial thought. To make our people inventive and ingenious we have to encourage and cheer them instead of pressing them down to sordid necessity.

And how better can the many be cheered than by the sustaining hand, the fraternal grasp, the needed counsel, the watchful guardianship of association?

Lecture This Evening.

Doct Gregory will deliver a lecture this evening upon a subject of much importance to our people, particularly to all heads of families. He comes to our city with the highest testimonials from Rev. Dr Jenks of Boston Hon. D C Magoun the Mayor of Bath, and various other gentlemen, and by almost the unanimous expression of the Press in his favor.

The subject of discourse is the exposure of Man-midwifery and the advocacy of Female-midwifery. Our citizens have been favored for a number of years, beyond those of most cities, with the skillful services of a competent woman, in cases of midwifery, who has been well sustained and by whom many have been relieved from much mental distress which they would have experienced if they had had no such aid at command.

The present design is to awaken the public attention to the subject of the instruction of Females in midwifery and the business of attending the sick as nurses.

Science, so called, in the way of drugging, has about reached its climax and an era of common sense in the treatment of the sick has already dawned, and is soon day light will come, when good nursing and proper diet shall take the place of excessive drugging and medical experiments.

We advise every body to turn out and hear what the Doctor has to say.

It is said by a writer in the Richmond Whig, that the ancient town of Jamestown is now almost entirely submerged by the washings of the James river. He says at the rate the water for several years has been washing, the whole place will in a few years be overflowed by the river.

The Methodist Episcopal Conference now in session in this city is attended by an unusual number of aged people. Rarely, if ever, has our city held so many and so worthy men, venerable for their age and virtues as at the present time.

Among these worthies is Bishop Hedding the oldest Bishop of the denomination, also the Rev Mr Hall, the second Methodist minister ever on Penobscot river. Of the forty members gathered into a church by him at Hampden only one is now living.

Capt Zoath Smith of Bucksport is here as a visitor at the conference. He took on board his vessel the first load of boards ever sent to Boston Market from Bangor, which was then little removed from a wilderness. He is now in good health and cheerful. The changes which have taken place since that time interests him very much. The remarks which these venerable men make of the impressions which these changes suggest are highly interesting.

The 'Free Soil' Convention is to assemble at Buffalo to-morrow. It will embrace one of the most singular combination of political elements ever yet seen in this country. Its proceedings will be watched with eager curiosity for no decisive and harmonious action can be had until they enter into some sort of a compromise. The rejectors and scouters of all compromises will be compelled to meet at the very threshold of their labors the necessity of compromise, or break up without reaching any practical result.

The nature of the differences of opinion which will arise may be partially gathered from the following opinion which Mr Giddings expressed in Congress, of Mr Van Buren:—

'Sir, I may be led to confide in the honor of a slave-holder; but a 'servile doughface' is too destitute of that article to obtain credit with me.—Mr Van Buren has placed the evidence of his servility conspicuously upon the records of our country. There it will remain, and will be regarded as an enduring memento of the degeneracy of the age, and of the men who filled our public stations.'

The Northern Locofoco press are trying to make their readers believe that Gen Taylor ought not to be elected President because he is a Southern man and therefore cannot be opposed to the extension of slavery. The Southern loco press on the contrary are opposing Gen. Taylor because he will not veto the Wilmot Proviso, and because he declared to the War Department during the Florida war that he could not consent to meddle with claims set up to certain runaway negroes, since it would reduce the negroes from a comparative State of Freedom to that of slavery, and 'because' as they declare, 'he is opposed to the extension of slavery in the territories—having opposed the annexation of Texas—and having decidedly approved of its non-extension in his well known Signal letter of the 18th of May, 1847.'

Unemployed Shipping.

So little produce is going forward at the South that a very large number are employed, and the rate of freights have reached the lowest depth possible. Vessels are not a very saleable property just at present. One was offered at auction in this city the other day, and hardly the first bid could be obtained.—Boston Traveller.

The Hon. John Norvell, United States District Attorney and ex U. S Senator, Hon. Lansing B. Misner, A Wales, Esq, Hon Alexander Davidson, and Isaac B Smith, all leading Locofocos, have commenced the publication of a campaign paper in Detroit, devoted to the election of Taylor.

The Ann Arbor Democrat and Allegany Record have dropped Cass.

The New York Globe, Barnburner, says that Mr Van Buren will be run for the Presidency whether nominated at Buffalo or not. It thinks there is little doubt of his receiving the nomination and should he do so and the convention nominate a candidate for Vice President, the ticket will be supported by Mr Van Buren's friends with whatever party he may have heretofore acted.

Hon Daniel Webster does give and intends to give his cordial and hearty support to Gen. Taylor. The same of J M Botts—the same of Mr Slingerland, all of whom have been reported as being opposed to him by those who wished they might be so. These weak inventions of the enemy will at length be fully and generally understood.

We would call the attention of our readers generally to the notices for the District and County Conventions which appear in our columns. It is desirable there should be a full attendance and that every town should be represented.

The Bath Tribune states that seventy houses are in the course of erection in that city.

More Annexation.

The National Intelligencer has the following statement, from authority upon which it places "entire reliance:"

"The arrangements are nearly completed for the contemplated new Republic, to consist of the Mexican Provinces on the Rio Grande, with San Luis as the capital, and Tampico and Matamoras as the seaports. General Shields is at the head of the movement, and is now probably at San Luis in general council to make the final arrangements. Many have already gone from New Orleans to meet him. The American force will not be less than five thousand men. Our government [the Executive] were consulted; but they said that they will neither aid nor oppose it. They will aid it notwithstanding their declaration. They can leave arms, ammunition, &c, at Tampico, and on the Rio Grande, and let the invading force *take* them. Further annexation is the object, after the new Republic of 'Sierra Madre' has declared its independence of Mexico."

An Irishman, trying to put out a gas light with his fingers, cried out, 'Och, murder! the devil a wick's in it.' This reminds us of a painter from the country, who on coming to work in a city office, and wishing to light the gas, asked the foreman if he would 'show him how to touch off them gandlesticks.'

The man who fawns upon you in prosperity will most surely trample on you in adversity.

A gentleman, not troubled with the ready, says he will vote for rough, because a tayler is the only man who could suit him.—Portland Adv.

If you want enemies, excel others—if you want friends, let others excel you.

John Quincy Adams in favor of General Taylor.

The Salem Gazette publishes the following conclusive evidence with regard to a statement that has been contradicted with some petulance:

DANVERS, Jul 31, 1848.

To the editor of the Salem Gazette

SIR:—Having exposed you to some severity of remark, from some of your Boston correspondents, by a communication to your paper relating to the opinions of John Quincy Adams, said to have been expressed by him, as to the expediency of bringing forward Gen Taylor as a candidate for the office of President of the U. States, and not being inclined to impose on others any responsibility in this matter, that properly belongs to myself, I hand you a letter this day received from Hon C. Hudson, a gentleman who never says more than he knows, and whose declaration will be credited by Massachusetts, as fully as that of any other man; which fully sustains all that I have said, and more. I have other testimony in abundance, equally strong. Let those who have charged me with falsehood, reflect thereon.

Very truly yours,
J W PROCTOR

WASHINGTON, July 26, 1848.

SIR:—In answer to your inquiry contained in your favor of the 21st inst, I have the honor to say, that hearing from many of our friends that Hon J. Q. Adams was in favor of General Taylor for the Presidency, I took occasion to introduce the subject of the candidacy in a conversation with him, by asking him whom the whigs would run. His answer was, General Taylor. I expressed some dissatisfaction at such a nomination; and he replied that he preferred him to any other Southern man; that he believed him to be the only man who could break down this corrupt administration, and close this miserable war, and would do much to curb the spirit of conquest, and check the spread of slavery, than any man the Whigs could elect. In another conversation with him on this subject, he expressed the same general views, and said that Gen Taylor as a soldier was bound to obey the orders of the President, and could not as an honorable man resign his commission in time of war, when his country wanted his services.—These conversations were held with Mr. Adams some time in January, as near as I can now recollect.

Very respectfully, your ob servant,
CHARLES HUDSON.

JOHN W. PROCTOR, Esq.

We learn from Mr James Coombs, a returned volunteer belonging to this town, that Alfred Dwinal son of Capt Aaron Dwinal, formerly of Lisbon, died in the gulf of Mexico, on his return to the United States, and was thrown overboard.—Lewiston Falls Journal.

Lines.

Where shall we make her grave,
Oh! where the wild flowers wave
In the free air!
Where shower and singing bird
Midst the young leaves are heard—
There—lay her there!

Harsh was the world to her,
Now may sleep minister,
Balm for each ill:
Low on sweet nature's breast
Let the meek heart find rest,
Deep, deep and still!

Murmur glad waters by!
Faint gales with happy sigh
Come wandering o'er
That green and mossy bed,
Where, on a gentle head,
Storms beat no more!

What though for her in vain
Falls now the bright spring rain,
Plays the soft wind;
Yet still from where she lies
Should blessed breathings rise,
Gracious and kind.

Therefore let song and dew
Thence in the heart renew
Life's vernal glow!
And o'er that holy earth
Scents of the violet's birth
Still come and go!

Oh! then where wild flowers wave,
Make ye her mossy grave,
In the free air!
Where shower and singing bird
Midst the young leaves are heard—
There—lay her there!

BOWEL COMPLAINTS, COLICS, &c.
Positively cured by JAYNE'S CARMINATIVE BALSAM

Dr D Jayne—Dear Sir—You ask me what proofs I meet with of the efficacy of your Carminative. I can safely say that I never prescribed a medicine for Bowel Complaints that has given me so much satisfaction, and my patients so speedy and perfect relief as this. Whenever introduced into a family it becomes a standing remedy for those ailments, and is called for again and again, which I think a pretty good proof of its efficacy and usefulness. In the *Summer Complaint* of children, it has frequently appeared to snatch the little victims, as it were, from the grave. "It saved the life of my child, and of such and such a child," I have repeatedly heard said. In dysenteric affection of adults, I have time and again seen it act like a charm and give permanent relief in a few hours, I may say in a few minutes. In fine it is a valuable medicine, and no family should be without it. Respectfully, N. L. KNAPP, M.D., Professor of Materia Medica in the Laporte University, Indiana.

The most wonderful curative of Pulmonary Consumption, in the whole range of human experience, is the Hungarian Balsam of Life, discovered by Dr Buchan of London, and known as the Great English Remedy.

From S Tousey, Esq., Agent for the Western States.—S. Tousey, Esq., of Rochester, New York, General Agent for the Western States, says the Hungarian Balsam is universally considered by druggists the most perfect and admirable medicine of the kind invented—and is rapidly superseding all the old and most popular remedies for Diseases of the Lungs in that section of the country.

ALBEMARLE COUNTY, Va., March 21, 1847.

Mr Seth W Fowle—Dear Sir—I take pleasure in stating to you my experience in the use of Wistar's Balsam of Wild Cherry. I own a very valuable negro girl, who was attacked with a difficulty of the lungs, which brought her in appearance to the brink of the grave. I consulted some of our best physicians, who pronounced her case incurable, or that they could do no more for her. I tried many remedies, but none did any good. I saw some account of Wistar's Balsam, and thought I would try it, but put little faith in it. I procured a bottle, which was administered according to directions; and I saw she began to mend—and before the first bottle was gone she was up. I procured a second, and she took that, and now she is, I think, cured or nearly so. She attends to her daily labor, and I hear no complaint from her.

THE BEST TRUSS IN USE

Is DR. J. W. PHELPS' Patent Elevator Spiral Truss and Abdominal Supporter.

NEW YORK GENERAL INFIRMARY, 70 Nassau St., May 24, 1848.

I have examined Mr. J. W. Phelps's newly invented Patent Spiral Truss, and concur with Doctors Valentine Mott, Stevens, and Parker, in their opinions of its principle and structure. Having an inguinal rupture myself, and used various kinds of Trusses for the last ten years, I concluded to try one of theirs, and finding the adaptation of its spiral pressure and the action of the pad so much easier than any others, I have no hesitation in recommending it, in preference to any I have seen.

SAM'L H. P. LEE, M. C. M. S.

To MR. J. W. PHELPS—Sir—I comply with pleasure with your request for my opinion of your Abdominal Supporter for *Prolapsus Uteri*. I have recommended it in many cases, and have heard much satisfaction expressed with its use. It is light, keeps its place very well, gives the support required, and is not so expensive as to prevent its use by those whose means are small, and who so frequently suffer from Prolapsus. I give to it with great pleasure my recommendation.

WALTER CHANNING.

Boston, April 26, 1845.

I concur in the foregoing opinion of Dr. Channing, in regard to Mr. J. W. Phelps's Abdominal Supporter.

STEAMER STATE OF MAINE.

FARE AND FREIGHT REDUCED—TIME CHANGED—ANY BODY'S LINE—NO COMBINATION!

FOR PORTLAND AND BOSTON

VIA

Boston & Maine Rail Road

The New, Splendid, and Fast Steamer

STATE OF MAINE;

CAPT. S. H. HOWES,

Will leave Bangor for Boston, via Portland, every **Monday, Wednesday and Friday,** at 6 o'clock, A. M., touching at all the usual landings on the Penobscot, and connecting with the Cars at Portland, for Boston, the same afternoon.

Returning—Leaves Portland for Bangor same evenings, on the arrival of the Express Train from Boston, touching at landings as above.

This new and elegant Steamer was built the past winter at New York, expressly for an outside sea route—is owned by the people on the Penobscot.—No pains or expense has been spared in building and furnishing her in a manner, for safety and comfort, equal to any boat on the United States. She has a fire engine and 75 ft of hose, by which water can be conducted to any part of the boat in three minutes. She likewise, is provided with 5 Life Boats capable of sustaining 50 people each, and two Quarter Boats that will carry 25 each.—Of her other accommodations we leave the public to judge. The line of cars with which she is connected, are not surpassed for elegance and comfort in the Union.

For the accommodation of merchants, a Freight Train will run every Monday, Wednesday and Friday, by the Rail Road from Boston, to meet the steamer State of Maine at Portland, same evenings. Freight taken at half the usual rates.

FARE—From Bangor to Boston $1.00—from all the landings on the Penobscot $1.00. Way Fares as low as any other Boat.

MRS. E. KIDDER'S

DYSENTERY CORDIAL,

—AN—

Immediate & Perfect Cure

—FOR—

CHOLERA MORBUS, DYSENTERY, DIARRHŒA, SUMMER COMPLAINTS OF CHILDREN, SEA SICKNESS, GENERAL DEBILITY, etc. etc.

WHERE this all powerful antidote is at hand, Cholera, Dysentery and Chronic Diarrhœa are no longer to be seriously feared, or looked upon with terror—as this Cordial will most assuredly cure the disease in the course of a very few hours if taken at the commencement.

It has been before the public for more than sixteen years, and was the first article made known to the public as an immediate and perfect remedy for these complaints. It has been thoroughly tested in every country and every climate, and its effect has every where proved the same—SURE TO CURE, even when the disease has advanced to the last stage. The public may rest assured that it contains neither opium or mineral substances or any thing that is in the least injurious to the constitution.

Cholera and Common Cholera Morbus.

This Cordial immediately checks the vomiting, relieves the pains, stops the Diarrhœa, and restores the bowels to a perfectly regular and healthy state, however severe the attack may be, or however low the patient may have become. Invariably restores.

Severest cases of Dysentery,

are immediately counteracted, the pains are allayed, the bowels healed and are subsequently the bowels become perfectly regulated and restored in the short space of ten or twelve hours.

Chronic Diarrhœa,

either in children or adults, of months or years continuance, are most readily cured with this Cordial, notwithstanding they may be reduced to a mere skeleton; it immediately strengthens, and shortly restores them to perfect health.

Cholera Infantum.

It has saved the lives of many thousand children when reduced to death's door by this complaint; it gives them immediate relief, and they very soon recover.

Sea Sickness.

It is a most pleasant and desirable remedy for Sea Sickness. It checks the vomiting and readily restores the patient. It invariably checks vomiting, produced from any cause whatever.

Children that are Teething,

if inclined to Diarrhœa, should always be provided with this medicine, as it will keep the bowels regulated, and keep off the Canker. It is wholesome, safe and pleasant to the taste, and children are fond of it and will take it without trouble or dislike.

For General Debility and Dyspepsia,

It is a most excellent restorative, giving a healthy tone to both the stomach and bowels, and prevents food from pressing or disturbing the stomach.

CAUTION.

Beware of those impostors which are daily palmed off upon the public, bearing the name of my article although CHOLERA MORBUS DYSENTERY AND DIARRHŒA CORDIAL, which name impostors have borrowed. Also they have copied my advertisements and prefatory addresses. Doubtless they have done this for the purpose of palming off their worthless articles at the expense and reputation of this original and most popular medicine that ever came before the public.

Be sure that you obtain MRS. E. KIDDER'S Cholera Morbus, Dysentery and Diarrhœa Cordial and you will get the only true and original article, which has ever been held in the highest estimation by the public throughout the whole country.

It is put up in Bottles holding nearly a quart, intended for family use, and sold at One Dollar a bottle.

Sold by MRS. E. KIDDER, No. 100 COURT STREET, BOSTON, who is the inventor and sole proprietor. Druggists and Apothecaries supplied as formerly, in large or small quantities.

DISEASES OF THE Throat and Lungs.

COUGHS and Colds, the fruitful parents of Consumption, Bronchitis, Asthma, Pleurisy, and many other dangerous diseases, are too often neglected until the foundation of the Specific Complaint is laid deep in the System. A Physician is then called in, who administers a few Palliatives, but declares the disease incurable, and the Patient in conformation of his opinion, dies. But why does he die? Simply, because he does not resort to the proper remedy, but trusts the mere ipse dixit of a Practitioner rather than the infallible evidence of experience and the most authentic testimony. On this basis is the only true one, the efficacy of

DR. VONDERSMITH'S INDIAN COUGH BALM and Lung Balsam,

have been thoroughly established. Let those who doubt, read the following testimonials which are merely samples of hundreds of the same nature.

CONSUMPTION AND AFFECTION OF THE LIVER, CURED

Of Twenty Years Standing!

CITY OF NEW YORK, July 21st, 1847.

This is to Certify that I, Nelson Larrabee, of Jersey City, have been subject to a dry hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLY CONSUMPTIVE, neither the advice of regular physicians nor the many advertised remedies I have taken have been of any permanent benefit, and I was sinking hopelessly to the progress of my disease, when I was persuaded to try Dr. E. W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the aid of which, all my symptoms have been removed and I have been wonderfully restored to the blessings of health, and the prospect of a prolonged existence.

In gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate.

NELSON LARRABEE, Jersey City.

Sworn to before me, this 21st day of July, 1847.

WM. V. BRADY, Mayor of the city of New York.

INFLAMMATION OF THE LUNGS.

New York, June 19, 1847.

DR. VONDERSMITH—I have been subject to a cough, pain in the chest, difficulty of breathing, &c., for many years past. About four months ago I took a severe cold which settled on my lungs. I was unable to attend to my business during the day. I had had spells so that I thought I could not possibly survive, and less I could get relief. The excessive night sweats had reduced my whole body to a skeleton. I expectorated white frothy mucous, in fact, I could I give the full particulars of my case, it would be almost incredible. I was recommended to try Dr. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I consented, when I had used it about one week, my cough decreased considerably, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present time. I sincerely believe had I not made use of Dr. V's invaluable Medicine, that I would be mouldering in the silent grave. Therefore I believe that I am doing nothing but justice, in stating the above facts, so that you may show it to all the afflicted, who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted who may call upon me.

Your grateful patient and friend,

JAMES B HENDERSON, No 703 Washington St.

Sworn to before me this 19th day of June, 1847.

WM. V. BRADY, Mayor of the city of New York.

CONSUMPTION.

STATEN ISLAND, June 10th, 1847.

DEAR SIR—I take great pleasure in giving you my certificate; last December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of white and yellow mucous. Some days I raised a half pint of mucous, streaked with blood. I have been under the treatment of a dozen physicians, was recommended by Dr. Michel of Philadelphia, to use a breathing tube; I purchased one, I only made use of it for one week; it was the cause of bringing on hemorrhage of the lungs, which reduced me so much that I was unable to sit up my voice was entirely destroyed, it was difficult for persons to understand me. I saw Dr. Vondersmith's Medicine recommended very strong by a person whom he had cured, I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles, I took according to the directions, and it cured me perfectly sound. Yours, &c., ROBERT WILLSEY.

Sworn before me, this 18th day of June, 1847.

Dr. Townsend's SARSAPARILLA.

THE MOST EXTRAORDINARY MEDICINE IN THE WORLD!

This extract is put up in quart bottles, it is six times cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines is, while it eradicates disease it invigorates the body. It is one of the very best Fall and Winter medicines ever known; it not only purifies the whole system and strengthens the person, but it creates new, pure and rich blood, a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past two years, more than 35,000 cures of severe cases of disease, at least 20,000 of these were considered incurable.

More than 3000 cases of Chronic Rheumatism,
2000 cases of Dyspepsia,
4000 cases of General Debility and Want of Energy,
7000 cases of the different Female Complaints,
2000 cases of Scrofula,
1500 cases of the Liver Complaint,
2500 cases of Diseases of the Kidneys and Dropsy,
3000 cases of Consumption,

and thousands of cases of diseases of the blood, viz.—Ulcers, erysipelas, salt rheum, pimples on the face, &c., &c., together with numerous cases of sick headache, pain in the side and chest, spinal affections, &c. &c.

This, we are aware, must appear incredible, but we have letters from physicians and our agents from all parts of the United States, informing us of extraordinary cures. R. Van Buskirk, Esq., one of the most respectable druggists in Newark, N. J., informs us that he can refer to more than 150 cases in that place alone. There are thousands of cases in the city of New York which we will refer to with pleasure, and to men of character. It is the best medicine for the preventive of disease known. It undoubtedly saved the lives of more than

5,000 CHILDREN, THE PAST SEASON,

as it removed the cause of disease, and prepared them for the summer season. It has never been known to injure in the least the most delicate child.

RHEUMATISM.

This Sarsaparilla is used with the most perfect success in Rheumatic complaints, however severe or chronic. The astonishing cures it has performed are indeed wonderful. Other remedies sometimes give temporary relief; this entirely eradicates it from the system, even when the limbs and bones are dreadfully swollen.

☞ Hear Mr. Seth Terry, one of the oldest and most respectable lawyers in Hartford, Conn. The following is an extract of a letter received from him:

"Dr. Townsend—I have used one bottle of your Sarsaparilla, and I find it is excellent in its effects upon a chronic rheumatic pain to which I am subject, from an injury occasioned, several years ago in a public stage. Please send me two bottles to the care of Dr. Seymour. I have conversed with two of our principal physicians and recommend your Sarsaparilla. SETH TERRY.

Hartford, March 12, 1845.

CONSUMPTION CURED.

Cleanse and Strengthen. Consumption can be cured. Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness in the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side, &c., have been and can be cured.

Dr. Townsend—Dear Sir: Nearly twenty years ago I took a violent cold, which settled on my lungs, and affected me severely; indeed, finally it became a constant hacking cough, but not so severe as to prevent me from attending to my business. Within the last few years it increased on me gradually. At last I became reduced—I breathed with difficulty and raised with my cough much bad matter; and for the last nine months previous to using your Sarsaparilla, had regular night sweats; indeed, my friends and myself supposed that I would die with the Consumption, but I have the happiness to inform you that, to my surprise, after using three bottles of your Sarsaparilla I find my health restored. It relieved me gradually, and I am now enjoying much better health than I have before in 20 years. I had almost entirely lost my appetite, which is also restored. You are at liberty to publish this with my name in the papers, if you choose.

My little girl, who is three years old, had a very bad cough the whole of last Winter. We became very much alarmed on her account. While using the medicine I gave her some of it, and it soon entirely relieved her, as well as myself, and she is well now, and hearty, as any child I ever saw. She was also full of little blotches, it took them away, and her skin is smooth and fair now; and I can only add to the recovery her health from using your excellent medicine.

E. W. JOHNST, 444 Bowery.

GIRLS, READ THIS.

You who have pale complexions, dull eyes, blotches on the face, rough skin, and are "out of spirits," use a bottle or two of Dr. Townsend's Sarsaparilla. It will cleanse your blood, remove the freckles and blotches, and give you animation, sparkling eyes, fine spirits, and beautiful complexion—all of which are of immense value to unmarried ladies.

GREAT FEMALE MEDICINE.

Dr. Townsend's Sarsaparilla is a sovereign and speedy cure for incipient Consumption, Barrenness, Leucorrhoea, or Whites, obstructed or difficult Menstruation, Incontinence of Urine, or involuntary discharge thereof, and for the general prostration of the system—no matter whether the result of inherent cause or causes produced by irregularity, illness or accident.

Nothing can be more surprising than its invigorating effects on the human frame. Persons subject to weakness and lassitude, from taking it at once become robust and full of energy under its influence. It immediately counteracts the nervelessness of the female frame, which is the great cause of barrenness.

It will not be expected of us, in cases of so delicate a nature, to exhibit certificates of cures performed, but we can assure the afflicted that hundreds of cases have been reported to us. Seven cases where families have been without children, after using a few bottles of this invaluable medicine, have been blessed with fine healthy offspring.

Dr. Townsend: My wife being greatly distressed by weakness and general debility, and suffering continually by pain and a sensation of bearing down, falling of the womb, and with other difficulties, and having known cases where your medicine has effected great cures; and also, hearing it recommended for such cases as I have described, I obtained a bottle of your Extract of Sarsaparilla, and followed the directions you gave me. In a short period it removed her complaints and restored her to health. Being grateful for the benefits she received, I take pleasure in thus acknowledging it and recommending it to the public. M. D. MOORE.

Albany, Aug. 17, 1847. Cor. Grand and Lydius sts.

TO MOTHERS AND MARRIED LADIES.

This extract of Sarsaparilla has been expressly prepared in reference to female complaints. No female who has reason to suppose she is approaching that critical period, "the turn of life," should neglect to take it, as it is a certain preventative for any of the numerous and horrible diseases to which females are subject at this time of life. This period may be delayed for several years by using this medicine. Nor is it less valuable to those who are approaching womanhood, as it is calculated to assist nature by quickening the blood and invigorating the system. Indeed this medicine is invaluable for all of the delicate diseases to which women are subject. It braces the whole system, renews permanently the natural energies—by removing the impurities of the body, not so far stimulating the system as to produce subsequent relaxation—which is the case of most medicine taken for female weakness and disease.

SCROFULA CURED.

This Certificate conclusively proves that this Sarsaparilla has perfect control of the most obstinate diseases of the blood. Three persons cured in one house is unprecedented.

THREE CHILDREN.

Dr. Townsend: Dear Sir—I have the pleasure to inform you that three of my children have been cured of the Scrofula by the use of your excellent medicine. They were afflicted very severely with bad sores; have taken only four bottles; it took them away, for which I feel myself under deep obligation. Yours respectfully,

ISAAC W. CRAIN, 106 Wooster-st.

OPINIONS OF PHYSICIANS.

Dr. Townsend is almost daily receiving orders from physicians in different parts of the Union.

This is to certify that we, the undersigned, Physicians of the City of Albany, have in numerous cases prescribed Dr. Townsend's Sarsaparilla, and believe it to be one of the most valuable preparations of the Sarsaparilla in the market.

Capt. G. W. McLean, of the U. S. Marine Corps, and member of the New Jersey Legislature, has kindly sent us the following certificate. It tells its own story.

RAHWAY, Jan. 25, 1847.

A year since I was taken with the influenza, and my whole system was left in a debilitated state. I was induced to try Dr. Townsend's Sarsaparilla, and after taking two or three bottles I was very much relieved and attribute it entirely to the said Sarsaparilla. I have continued taking it, and find that I improve every day. I believe that it saved my life, and would not be without it under any consideration. G. W. McLEAN.

NEVER DESPAIR OF LIFE!

KELLEY & CO'S HIGHLY CONCENTRATED SARSAPARILLA

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives Annually!!

10,000 CASES

OF SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and HUMORS, of which *proof* can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle, and then be far superior to any in use. It is put into the Bottle its FULL STRENGTH and power, without reducing it, and this is done for the special benefit of those who use it, as it is objected to all other Sarsaparillas that they are Weak, Clumsy, Adulterated, Sickish, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other, and Six Times Better, Safer, Surer, and Cheaper than all others. THIS Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world; and CURES all the Sickness, KILLS all the Pain, and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill, CERTIFIES, stating as it may seem, that he actually CURED a case of Consumption with Kelley & Co's Sarsaparilla, and says that there is no medicine in which he has so much confidence for Diseases of the Lungs." Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities and seas.

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England says "that there is no other medicine which is CAPABLE of doing so MUCH GOOD and yet so INCAPABLE of doing injury." What distinguished compliments are these? Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails, the

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the BLOOD perfectly Pure, Rich, Healthy, Quick, Free, Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful, Strength wasting, Appetite gone, Pulse weak, or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor, to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas, is, that it does not tamper with the patient, or prolong his sufferings. But it first attacks the disease and stops it, then removes it, then brings up the flesh and strength on a perfectly pure Blood, so that the cure is always thorough and permanent. Others only scatter or back on the disease, but this EXTRACT, ERADICATES it wholly from the system—this saves the patient's life, while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that Medical Colleges, Professors, and Physicians always prefer it, for the sake of its Superiority. Try it, all you who are seeking the PRICELESS BLESSINGS OF HEALTH.

Ladies, Married and Unmarried!

It is for you especially, that this Sarsaparilla is made, as the "HEALING ART" has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought, hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail. But this Sarsaparilla has the SPECIAL ability, to cure every Disease Affliction, or Pain which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

CONSUMPTION CURED!

Buchan's Hungarian Balsam of Life.

THE GREAT ENGLISH REMEDY FOR COLDS, COUGHS, ASTHMA and CONSUMPTION.

BUCHAN'S HUNGARIAN BALSAM, the Great English Remedy for Pectoral and Pulmonary Diseases, et Bucands correlled and unsurpassed in the world ... agreeable, and effectual curative of the formidable complaints, now known to the afflicted world.

Three years' time of trial in the United States, during which time it has been distributed from Maine to Florida, has only served to establish its pre-eminent merit in all parts of the country, as the grand and only excellent remedy in the worst cases of Pulmonary disease, and the best and most agreeable curative of all the light forms of cold, cough and inflammations that can possibly be experienced.

INCONTESTIBLE PROOFS

Of the efficacy of this Balsam in the worst forms of Consumption.

IMPORTANT MEDICAL TESTIMONY.

DR. BUCHAN's Hungarian Balsam of Life is, beyond all question, the most perfect and admirable preparation for diseases of the Lungs. I have used it in my family, and in my professional practice for more than two years with the most uniform and entire success. It cures of severe Pulmonary disease, and I can conscientiously recommend it to all who are afflicted as the most certain remedy for such diseases with which I am acquainted. Yours very respectfully,

FREDERIC T. STORER, M. D.

Saco, Me., May 23, 1846.

Reliable Evidence of the Efficacy of BUCHAN'S HUNGARIAN BALSAM

[From the Christian Freeman.]

While we repudiate quackery, we are always pleased to give credit for that which is truly useful, and to give information which may benefit others. A few days ago a brother of ours, from Norway, Me., came into our office in a comfortable health, whom we did not expect to see again on earth. We received a letter a few weeks since, from another brother who resides in the house with him, saying that he was confined to his bed and could not probably continue but a short time. Judge then of our surprise when we saw him enter our office. He has a slight cough remaining, and it would be natural that he should have, death so long had he struggled in an agony of length of lungs. But he is now comfortable health. He following, letter which he addressed to the general Bureau, Agent for the medicine which has restored him so wonderfully, will show what medicine has been the instrument of the good work.

Boston, Feb. 16, 1847.

Dr. D. F. Bradlee—Sir:—I cheerfully furnish you with a few statements relative to my connection with "Buchan's Hungarian Balsam of Life." Here is a plain statement of facts in relation to my case, being ... to these who ... the sick, to point to a source from whence I obtained health, I should be thankful.

My residence is Norway, Me. Three years ago last fall I took a violent cold, which settled on my lungs, ... in the left side. ... that I was obliged to quit all labor, and was confined to the house until about four weeks since. During that time I received the best medical attendance, and tried nearly all the medicines which are recommended in such cases, but could find no relief, but grew worse, and for the last three weeks was confined to my bed. Two of my physicians gave me up as past recovery. But a fortune would have it, I heard of the Hungarian Balsam, and immediately procured a bottle. This gave me instant relief, and six bottles have broken up my cough and ... enabled me to attend to business, with advancing health my usual occupation.

BE WISE TO-DAY!

Delay is any case of Consumptive tendency, is emphatically Death, under all ordinary treatment. The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE. If you have any symptoms above described, be advised in time.

Sold in large bottles at only one dollar per bottle.

Certificate from Col. Tate, editor of the Columbia Democrat, Pa.

OFFICE OF THE COLUMBIA DEMOCRAT, Bloomsburg, Columbia Co. Pa., March 4, 1848.

Dr. William Wright—Dear Sir:—I am one of the many whose aversion to quack nostrums has deprived them of the benefits resulting from the use of good medicines. Acting under this influence, I have seldom resorted to the Pill box. Last March, when you commenced advertising in my paper, I was induced to give your Indian Vegetable Pills a trial, and after having fairly tested their merits for myself and family, gave them a decided preference over every other preparation.

In every instance, when afflicted with sick head ache, or when the stream of life was encumbered with morbid humors, I found speedy relief from the use of your Pills. By taking from four to six on going to bed, when indisposed, I have always been restored to health without loss of time, and without the expense of a physician. Wright's Indian Vegetable Pills possess the distinguished merit of operating effectually without disturbing the rest of the patient, and in no case, without producing even sickness at the stomach.

Respectfully, your friend, &c.

LEVI L. TATE.

[From the Delaware Express, Delhi, N. Y.]

WRIGHT'S INDIAN VEGETABLE PILLS.—Although not particularly friendly to patent medicines we must confess that we have become a convert to these pills having had an opportunity of one or two occasions to test their efficacy. For a gentle medicine, one of we will be found mild though effective. When bile or other impurities have accumulated, and more thorough medicine is required, a dose of three or four of these pills, taken on going to bed, will be found effectual in cleansing the stomach and restoring the bowels to a healthy state. We speak from experience, and take pleasure in commending the pills to the public.

Look out for Counterfeits!

Some are coated with sugar; others are made to resemble, in outer appearance, the original article. The safest course is to purchase from the agents only, one or more of whom will be found in every town and county in the State.

Kirkbride's Tattersall's HEAVE POWDERS:

A SAFE, SPEEDY AND PERMANENT CURE for *Heaves Broken Wind, Chronic Cough, Colds*, and all disorders which depend upon inflammation of the mucous membrane of the lungs, throat or head of the Horse, that affect the

Soundness of the Animal's Wind,

This remedy which has been used with such remarkable success in England, is now offered to Horse owners in the United States as a positive specific for these obstinate and distressing complaints. From the composition of powerful vegetable ingredients in its composition, it is enabled to compete successfully with disease in the bodily constitution of the Horse, and at the same time is warranted to be perfectly safe and gentle, is eaten greedily by Horses and other cattle, and does not at all incommode the animal, or deter him from usual labor. The following is one among many proofs we have of its efficacy. It is from one of the best Farriers in New York, and a gentleman whose knowledge in the medical treatment of Horses is very extensive.

New York, Nov. 1, 1847.

Messrs. A. H. Gough & Co.

Gentlemen—You will recollect that I bought a package of your Heave Powders some time ago to administer to a valuable horse in livery in my stables, and that I was in doubt of the wisdom of attempting to cure such a bad case as his was, and did not, in fact believe there were any medicines better for his complaint than those I had been in the habit of using during my extensive practice with Horses. But justice to you and your valuable remedy, requires me to say, that that single package cured the animal of as aggravated a case of Heaves as I ever saw, and his wind is now perfectly good. I believe the cure is a permanent one.

Respectfully, ED. FLOYD, 102 Laurence-st.

Messrs. A. H. Gough & Co.—Gents: I bought, about six weeks ago, a package of Heave Powders to administer to a favorite horse, who had been troubled with heaves for more than two years. His case was a very bad one, and so severe as to incapacitate him from half his usual labor, and had resisted all the remedies ordinarily used for this disorder, they had no effect not the slightest diminishing the violence of the heaving while taking the medicine, but that package of your remedy has completely eradicated the disease and now his wind is as good as ever it was. It is a month older he was taken and I can warrant him sound.

Respectfully, GEO. W. DAVIS, Monroe, Middlesex Co., N.J.

GREAT CONDITION MEDICINE.

Besides their specific soundness upon diseases of the lungs and windpipe, the Tattersall's Heave Powders, from their great alterative and restorative properties, are superior in the ... to the ... in the hands of those for the removal of impurities of the blood and predisposition to disease. Many a case of Founder has been mitigated and cured by a few doses of the Heave Powders, when thrown into the food that is given to the horse immediately after a hard drive or exposure to inclement weather. They are warranted to cure the worst cough in a few days, and will wholly eradicate a recent cold by the use of one or 2 doses. As a condition medicine they are unequalled, especially when a light hide, staring coat, loss of appetite, etc, denote a derangement of the digestive functions, or existence of botts and worms in the alimentary canal, as described in the following certificate:

Messrs. A. H. Gough & Co—That package of your Heave Powders that I bought of you for my horse's cough has entirely cured him, but in a different way than I expected. The first dose of Expectorant Powder that I administered brought away an immense number of worms from him, and I believe they were all the cause of the cough, rough coat, etc, which he exhibited, for that package has entirely cured him; his appetite is good, and he is now in prime condition. I cheerfully recommend your Heave Powders for worms as well as heaves. Yours, SAM'L ROBERTS, East Hampstead, L. I., Oct 26, 1847.

☞ CAUTION. As several imitations of this valuable and popular remedy are about being put up under the name of "Heave Cure," "Heaves, compound," &c., persons are cautioned to beware of them, and to procure none but *Kirkbride's Tattersall's Heave Powders*.

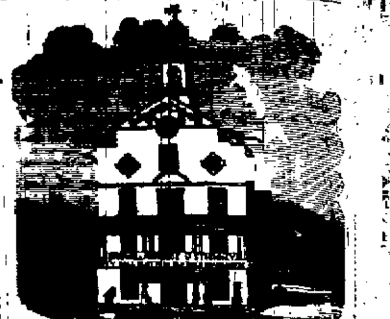

No Stable should be without this potent preservative. Price $1 per package of sufficient to cure an ordinary case; 6 for 5 dolls.

Sold by A. H. Gough & Co., 149 Fulton st., New York, S. W. Fowle, Boston, and by Druggists generally throughout the United States.

SAW MILL WHEELS

in use at the present time, and they can confidently recommend them with the same head and quantity of water applied, as possessing and combining more *Strength and Speed*, and giving a more uniform and *Steady Motion* in and out of the cut (and therefore not liable to break cranks,) and will also run *longer* and *Saw more Lumber* under a low head than any other Wheel in use.

Another advantage which this Wheel has over others is that it is constructed with but Two Vents for the discharge of water which makes the apertures larger and allows the "drift stuff" to escape without filling up the Wheel.

Persons wishing to adopt the BEST WHEEL will do well to call and examine before purchasing elsewhere.

Reversing Centrifugal Water Wheel

—FOR—

UPRIGHT SHAFTS,

WHICH are adapted for driving all kinds of Machinery in Manufacturing establishments or Mills, and are made of different sizes so to give any amount of power required and from the reputation these Wheels have acquired by the successful operation of several hundred of them already sold and in use, we feel confident in recommending them as combining more advantages than any other Wheel, for perpendicular Shafts, now used.

As evidence of the merits of this Wheel we would refer to the following extracts from the report of experiments made with the same by ITHAMAR A. BEARD, Esq., *Civil Engineer*.—Lowell, Mass. who is well known as one of the most Scientific and experienced practical Engineers in this country.

"This wheel is formed with curved floats the number, depending upon the size and vent of the Wheel each extending so far around the Wheel that when the water arrives at the jet its pressure is so far expended that it falls very nearly dead from the Wheel. The Wheel is inclosed in a cylindrical wooden curb or flume, in which the water stands at its full head, the column being sustained by the stationary plate underneath the Wheel so that it has no downward pressure upon the Wheel which stands perfectly free in the column of water and by this arrangement all the friction on the step and bearing of the Wheel is avoided, and so much of the power saved, which in the ordinary mode of operation is wholly lost.

"This Wheel is adapted to low as well as high heads of water, and will run as well in back water, as not of ... providing the head rises in a freshet as fast as the back water. But a Wheel with the jets rightly gauged for a high head will not answer a low one, nor vice versa, or as the head increases the width of the jets should be proportionably decreased, so that the water may not issue to waste, and not give the best effect to the Wheel.

"In point of power, the trials show conclusively that this Wheel is superior to the best constructed Breast Wheel, and it has the advantage of working with good effect in situations where the Breast Wheel would be worthless, is less liable to need repairs, easily accessible when they are needed, costs much less in the outlay, is much more durable, and takes very much less room in a mill or shop. Simplicity of structure, durability of parts, correctness of application and excellence of power are the grand points of recommendation for this Wheel.

ITHAMAR A. BEARD, Civil Engineer."
